

PRESS RELEASE

CRISALION Mobility reaches pre-sale agreement with iJet for 10 Integrity eVTOLs

CRISALION Mobility is driving sustainable aviation in Malaga through a cooperation agreement with iJet which includes new routes in the region.

The official agreement ceremony took place last night at the Malaga Aeronautical Museum and was attended by key figures from the Regional Government of Andalusia, the Malaga Provincial and City Councils, as well as various municipal authorities from the province.

Madrid, 19 June 2024 — **CRISALION Mobility**, a Spanish leader in the design and development of advanced electric mobility solutions that are efficient, safe and sustainable, and iJet Aviation, which specialises in integrated aircraft management, signed a cooperation agreement last night to develop the air mobility sector in the province of Malaga.

Under the agreement, CRISALION Mobility completed the pre-sale of ten Integrity aircraft to iJet, reflecting a clear commitment to operational innovation and paving the way for more accessible, efficient transport in the region of Andalusia.

As part of this partnership, CRISALION Mobility and iJet will designate routes connecting key hotspots in Malaga and its surroundings, offering unprecedented access to some of the region's most important landmarks.

These routes include:

- **Malaga-Costa del Sol International Airport:** A key hub for domestic and global connectivity.
- **Links to hotel complexes in the region:** Direct links offering greater convenience for hotel guests.
- **Puerto Banús, Marbella.**
- **Inland destinations** like Ronda and nearby areas like Gibraltar.
- Links to **North Africa.**

The official agreement signing ceremony took place last night at an event entitled 'The Next Generation of Mobility Solutions' at the Malaga Aeronautical Museum and was chaired by the CEOs of the two companies – CRISALION Mobility's **Carlos Poveda** and iJet Aviation's **Javier Barriga** – accompanied by **Manuel Heredia**, General Manager at CRISALION Mobility. The event was also attended by the Territorial Delegate of the Regional Government of Andalusia, **Carlos García Giménez**, the President of the Provincial Council of Malaga, **José Francisco Salado**, and the Mayors of various

municipalities in the province, as well as prominent business leaders and professionals from the aviation and technology sector.

The city of Malaga has become a global success story thanks to its ability to attract international talent and investment. The city's entrepreneurial spirit is a perfect match for CRISALION Mobility's goals, and this agreement is a clear example of how innovation and entrepreneurship in technology will continue to improve this ecosystem, shaping the city and supporting its progress.

Manuel Heredia, General Manager at CRISALION Mobility, said: *"This pre-sale of our Integrity aircraft and the designation of key routes in Malaga clearly evidence how Spanish companies are innovating and adapting their outlooks to the advanced air mobility solutions their customers will be demanding within a few years. In 2030, mobility will look completely different from the way it is today. We are proud to lead this revolution, upholding our commitment to innovation and sustainable development, both of which are fully aligned with the way we work and our outlook for the future."*

Javier Barriga, CEO of iJet Aviation, said: *"This agreement with CRISALION Mobility is a major milestone for iJet and for the future of air mobility in Malaga. We are excited to work together to explore new opportunities and offer advanced air transport services to our customers."*
